

FOR TERRACES WITH

PAVERS

CLEVER LEVEL

2 IN 1 ADJUSTABLE PEDESTALS

FOR RAISED TERRACES
WITH PAVERS AND DECKING

DISCOVER THE NEW CLEVER LEVEL TERRACE PEDESTALS

- **CLEVER LEVEL** adjustable pedestals are a unique two-in-one solution.
- You can use the same pedestal to install elevated terraces made of terrace **pavers and joists with boards**. There is no need for additional replaceable elements.
- They can be used to build elevated terraces on **roofs, balconies and home terraces**.
- They are only 3 heights models that cover the most necessary **adjustment range from 25 to 200 mm (1" - 7 6/7")**.

* Patent pending

FOR TERRACES WITH

DECKING

(from **1"** to **1 4/7"**)

Adjustable pedestal
CLEVER LEVEL 025-040

height from **40** to **80 mm**
(from **1 4/7"** to **3 1/7"**)

Adjustable pedestal
CLEVER LEVEL 040-080

height from **80** to **200 mm**
(from **3 1/7"** to **7 6/7"**)

Adjustable pedestal
CLEVER LEVEL 080-200

Short **specification**

The CLEVER LEVEL pedestals are ready to install elevated terraces made of terrace pavers and joists with boards. They have smooth height adjustment. It is possible to attach them to the substrate using dowels or, in the case of insulated substrates, using mounting adhesive.

PRODUCT	DIMENSIONS	HEIGHT	EXPANSION GAP	JOIST WIDTH
CLEVER LEVEL 025-040	Base diameter: ø160 mm (6 1/3") Head diameter: ø94 mm (3 2/3 ")	25 - 40 mm (1" - 1 4/7")	3 mm (1/8") *Spacers can be removed to fit against a wall or in a corner.*	Without breaking spacers: up to 45 mm (1 3/4") With breaking spacers: up to 65 mm (2 1/2")
CLEVER LEVEL 040-080		40 -80 mm (1 4/7" - 3 1/7")		
CLEVER LEVEL 025-040		80 -200 mm (3 1/7" - 7 6/7")		

Terraces with **PAVERS**

- Built-in spacers create a 3 mm wide expansion gap.
- The pedestals work perfectly with 20 mm thick ceramic pavers.
- For pavers made of stone, ceramic or concrete.

Terraces with **DECKING**

- Just bend the joist adapter and attach the joist to the pedestal with screws.
- Joist width up to 65 mm.
- For joists made of wood, aluminum or composite.
